## How to take 12 photos that will help to sell your fire truck:

- Take photos outside of the station
- Try to keep the sun at your back (you might have to move the truck once)

## Handy photo checklist:

1. Driver side: whole truck in the photo
2. Driver side: wide with all compartments open – whole truck in the photo
3. Passenger side: whole truck in the photo
4. Passenger side: with all compartment open – whole truck in the photo
5. Beauty shot front of truck
6. Beauty shot rear of truck
7. Rear shot: wide with rear compartment open (if applicable)
8. Interior seating front
9. Interior seating rear of cab (if applicable)
10. 11. 12: Any special features or flaws (ie, inside of walk-in rescue or ambulance, specialized equipment included, close up aerial bucket, or certain areas of concern such as rust).
